Resume.markdown
==
Markdown's efficient. I'd much rather be writing code than formatting resumes.

Highlighted Projects
==

ReSchedule Med — Founder & CEO — Oakland, CA — 2015–2016
----
  * Accepted to the YCombinator W15 batch, raised an angel round.
  * Managed a semi-remote team of up to 6 people.
  * Ran customer development & sales: beta test => extended trials => paying customers.
  * Built the marketing site and entire front-end web application.
  * Hit just about every early stage hurdle, and loved how much I learned from it!

Residency Scheduler — Undergraduate Research — UIUC — 2013–2014
----
  * Design and build the application's interface (Angular.js).
  * Architect an API and backend to communicate with the website and scheduling software.
  * Implement an automated test suite.
  * Work with an alpha tester to create our MVP.

Election Analytics — Undergraduate Research — UIUC — 2012–2014
----
  * Track and analyze polling data to forecast elections.
  * http://electionanalytics.cs.illinois.edu
  * Redesign the site for 2014 to allow for "personalized forecasts".
  * Create a web-spider to automate the collecting and processing of poll data.
  * Update codebase and processes:
     — svn –> git
     — static html –> php + js
     — automated tasks and build process (grunt.js)
     — automated unit tests (phpunit and jasmine.js)

Edu & Exp
==
  * Founder & CEO | ReSchedule Med | Oakland, CA | Jan. 2015 – Dec. 2016
  * Intern Developer | Microsoft | Redmond, WA | Summer 2013
