Resume.markdown
Markdown's efficient. I'd much rather be writing code than formatting resumes.

Education
===

University of Illinois, Urbana, IL — B.S. in Computer Science — May 2015

Residency Scheduler — Undergraduate Research — UIUC — 2013–2014
  * Design and build the application's interface (Angular.js).
  * Architect an API and backend to communicate with the website and scheduling software.
  * Implement an automated test suite.
  * Work with an alpha tester to create our MVP.

Election Analytics — Undergraduate Research — UIUC — 2012–2014
  * Track and analyze polling data to forecast elections.
  * http://electionanalytics.cs.illinois.edu
  * Redesign the site for 2014 to allow for "personalized forecasts".
  * Create a web-spider to automate the collecting and processing of poll data.
  * Update codebase and processes:
      – svn –> git
      – static html –> php + js
      – automated tasks and build process (grunt.js)
      – automated unit tests (phpunit and jasmine.js)

Work Experience
===

  * Intern Developer | Microsoft | Redmond, WA | Summer 2013
  * Jr. Developer | Jack Henry | Springfield, MO | Fall 2011
  * Jr. Developer | Allscripts | Chicago, IL | Summer 2011
  * Intern Developer | LeapRE | Chicago, IL | Summer 2009
